

Dr. Hassan Tetteh, US Navy Chief Medical Informatics Officer, Surgeon and Author Appointed Chief Medical Officer of MyHealth.US

MyHealth.US Advisory Board Member, Dr Tetteh on June 1st became MyHealth.US' CMO. He will further enhance MyHealth.US' healthcare platform that quickly and securely maintains and exchanges medical, tracking and sensor data of MyHealth.US members, advance patient engagement and AI, and identify and distribute leading innovations in consumer-facing diagnostics and treatments using MyHealth.US LifeCodes.

NEW YORK (PRWEB) JUNE 22, 2018

MyHealth.US' corporate, union, insurance and community members benefit from ease of access to their medical records at over 170 hospital systems and over 560,000 doctors via MyHealth.US' platform. Dr. Tetteh has a life-long passion for innovation and connectivity. Calling on his leading edge, large-system experience, Dr. Tetteh will work to enhance sources of medical services and actionable data innovation that empowers members to live long, better, more affordably.

MyHealth.US with Dr. Tetteh's leadership will also continue to find, link, advocate and create access to affordable innovative care solutions that consumers might not yet be using but delivers better ROI for payers and better outcomes for patients. Dr. Tetteh will continue as an Advisory Board member of MyHealth.US, and now assumes all duties of CMO for MyHealth.US. Previous CMO, Dr. Jin Jiang, will remain a consultant to MyHealth.US.

Dr. Tetteh noted "Working with MyHealth.US since 2017 has been exciting as new cutting-edge solutions partner with MyHealth.US with just one goal – get people well faster and more affordably. What could be a better mission."

CJ Wilson, CEO of MyHealth.US, added "We know of no other physician with as much practical large-scale healthcare informatics experience, or real-world war-tested action plans to rollout the best solutions and find more. We are fortunate to work with Dr. Tetteh in this dual capacity bringing even more innovation and operating capacity to MyHealth.US healthcare platform and to LifeCodes."

Emiko Higashi, Advisor to MyHealth.US and board member of Takeda Pharmaceutical, noted "The astronomical growth in digital health brings responsibilities. The data must be gathered, protected, available and understood more than ever to develop and deliver solutions that truly save lives."

Dr. Tetteh added "There is no higher calling than to help as many people as possible. To advance we sometimes must reinvent. With MyHealth.US consumers are empowered with their data, with AI and engagement, and with a strong advocate for the best, most affordable and available solutions."

About MyHealth.US

Established in 2013, MyHealth.US is a healthcare services technology platform created by MyInfo LLC. MyHealth.US provides members, employers, labor unions, insurance companies and communities with unique LifeCodes® products with emergency profile information and 24/7 emergency assistance, secure collection and transfer of medical records, confidential tracking of health conditions, and recommendations and access to more affordable, innovative consumer-facing healthcare solutions. Their motto is "We Save Lives!". Outcomes are earlier, better and faster treatment, fewer medical errors and more innovative cost-effective care.
